

Please do not reduce regulation of the TV and radio ownership rules. The public needs diversity and separate sources of news and information in order to be aware and informed. The economic disparity between the smaller, independent stations and the large companies that already have so much media presence and influence will result in a loss of perspective and a narrowing of information the public really requires in order to be informed. The large companies are big and strong enough. Local programming provides a community connection and uniqueness. Please retain the current laws. Thank you
